April 13, 2017

The City of Oneonta is pleased to announce the approval of grants for 8 small businesses for a total of \$178,000. Funding for the businesses is made possible by grant award to the City of Oneonta from the NYS Office of Community Renewal through the New York State Community Development Block Grant Microenterprise Program. The businesses to receive funding are a mix of new and existing businesses that will support and create jobs for low and moderate income persons. Funding decisions were made by a review committee consisting of members of the local business community. Mayor Gary Herzig states, "I would like to thank the volunteer members of the grant committee for their time and energy. I also want to thank our partners at New York State Homes and Community Renewal for investing in the City of Oneonta".
